### Martin's Planting Guide

How, When and Where to Plant Field, Garden and Flower Seeds. Mailed free on request. Send for it.

**VARIETIES TO SELECT**

Realizing that our price list will reach quite a few that are not familiar with all the different varieties of seeds quoted, we have endeavored to help you make your selection by placing an "X" by the varieties that we consider especially desirable for home gardens. The experienced trucker needs no explanation or description as they are familiar with the standard trucking varieties.

**FIELD CORN**

Our Field Seed Corn is Southern grown and is selected entirely from a seed standpoint. We know both from our own experience and that of our customers, is the most productive kinds in cultivation.

The corn in Florida has grown to be a very important factor. We call particular attention to our **Seminole Flint Corn**.

White Prolific—Flinty, Shuck covers ear entirely. Its early maturity adapts it particularly well for late planting. Unlike many common corns that are of a soft and spongy nature **Seminole Flint** is hard and flinty.

It is a large yielder and as near weevil proof as any variety yet introduced. We have planted this variety in Florida, it gave excellent results. See price above.

**PASTURE CROPS CUT FEED BILLS**

We do not know of a State that is so well adapted to grow pasture, or green food as Florida and while the high prices prevail on hay and other feed commodities, we strongly urge our customers to sow liberally of grain and grasses that they might have sufficient pasturage for their stock, as well as an abundant cutting of hay. See information on grain and forage crops on inside pages.

### ATTENTION

#### Market Gardeners, Truck Growers, Large Farmers

We are close in touch with you, understand your soil and climate, and our many years of experience in the State has taught us the needs of the Florida farmer and we are in position to serve you better than any outsider.

We have one of the largest stocks of selected and tested seeds to be found in the South. We know that, quality considered, we can supply your wants at as reasonable prices as any other Seedsman or Grower and can give you quick service. We are here to serve you and hope that you will call on us often.

### PARCEL POST

Since seeds have been admitted under Parcel Post it is a great advantage to farmers residing many miles from a railroad, as seeds and other varieties can be delivered to their door, thus saving a trip to town. Besides the rates are very reasonable up to 400 or 500 miles. Should you wish to order large quantities of seeds by Parcel Post, write for special prices.
